

CAS in “Sex- and Gender- Specific Medicine” – Registration Form

Please fill in the form electronically and sign it . In addition, send a **scan of your passport or id card** together with the form by email to info@gender-medicine.ch until **29.01.2022**.

Registrations will be processed in the order in which they are received. On the basis of the information provided, the program coordination checks whether the admission requirements are met and submits the application to the course directors. The latter will decide on admission.

Please note the following page to register for the **different elective modules!**

To achieve the certificate for the CAS Sex- and Gender- Specific Medicine, you have to complete the four compulsory modules (Introduction to Sex- and Gender- Specific Medicine, Cardiovascular medicine, Endocrinology and metabolism, Study design and research) and at least four of seven elective modules. If there are still free places available, you can register for these until the end of the respective registration period. Details on the individual modules can be found on our website www.gender-medicine.ch. If you already know that you would like to choose certain modules, you can indicate this here and you will be enrolled for the individual modules at the same time when you join the CAS program.

Date	Place	Name of the module	Register
30 June - 1 July 2022	online	Oncology	
14-15 September 2022	online	Neurology and Psychiatry	
tbd October 2022	online	Pharmacology, Anaesthesia and Intensive care	
3 - 4 November 2022	online	Musculoskeletal Medicine, Autoimmunity & Forensics	
tbd December 2022	online	Primary Care	
tbd February 2023	online	Infectiology, Pneumology and Urology	

I would like to extend the duration of the CAS to two years and complete some modules in the cohort 2023/24.
